Industry and Regulatory Context

- TikTok, 2021: expanded automation with human review
- EU, 2024: scrutiny of minors' safety
- Berlin, 2025: restructuring and a labour dispute

Findings and Limits

- Lower fully automated share and reported counts
- No conclusion about moderation quality or staffing
- Causes and child-safety outcomes remain untested
- Coverage checks support comparison, not completeness

Sources and Project Materials

- Analysis tables, notebooks and SQL — GitHub
- Interactive dashboard — Tableau Public
- Data definitions — EU DSA Transparency Database
- Context — TikTok, European Commission and ver.di
